Destinations

Ofsted 16 to 19

Destinations shown are those sustained for six months or two terms (October to March) in the year after learners finished their study programme, having entered at least one level 3 qualification. For example, the figures for 'End of KS5' 2014 are for the destinations sustained during the year 2014/15 by those learners who finished their study programme in 2014. UK higher education figures also include learners who undertook higher education provision at a further education college. Further education figures are shown for 2014; they also include learners who undertook further education provision at a higher education institution.

Data is suppressed for groups fewer than 11 and categories with fewer than 3 learners (shown by a dash). For 2012 and 2013, the numbers of learners are rounded to the nearest 10. National figures shown are for all learners in state-funded mainstream schools and colleges and special schools.

For 2014, the data provided by HMRC/DWP has led to a substantial national decrease in the percentage of young people for whom activity was not captured, so data is not directly comparable with earlier years. In 2014, the data for destination not sustained combines both of the categories used in earlier years.

	End of KS5	Number of learners	Education or employment /training destination	Apprenticeship	Any education destination	Further education	UK higher education	UCAS acceptance for deferred entry	Destination not sustained		Activity not captured in data
									Destination not sustained	Destination not sustained/ recorded NEET	
All learners	2014	135	88%	12%	71%	-	58%	4%	10%		2%
	2013	120	76%	4%	73%	x	64%	-	10%	0%	14%
	2012	130	75%	4%	75%	x	50%	-	9%	0%	17%
