Parent/Carer Experience Survey

Dear Parents and Carers,

Your voice is key to school improvement. Although we seek to hear your voice at every opportunity throughout the year, we formally gather your opinions through an Edurio online survey every academic year.

This Parent/Carer online survey is now live and we hope that as many parents and carers as possible can complete it so the results truly represent your views. You can access the survey by clicking on this link:

[Parent/Carer Online Survey](#)

It should take around 15 minutes to complete and is completely anonymous. The survey will close on **Friday 21st July 2022**.

Our students and staff have been asked for their views in similar surveys earlier in the academic year. In each of these surveys, there was a completion rate of over 70% and we would love this figure to be even higher for this current survey.

Nova Education Trust are conducting this current survey in all schools across the Trust to facilitate improvement at both school and Trust level. This survey is a part of a much wider, active partnership between the school and parents/carers that we are looking to grow substantially over the next 12 months.

As a thank you for completing the survey, you have the opportunity to go into a free prize draw to win a prize and a winner will be selected randomly. If you would like to take part in the prize draw to win a prize, please provide your email address at the end of the survey. Nova Education Trust will only use the email address in relation to the prize draw and it is not linked in any way to the survey data which remains 100% anonymous. Your email address will not be used in any other way other than to enter you into the prize draw.

I thank you in advance for your cooperation and greatly appreciate any time you take to support improvement of our school.

Yours sincerely,

Dr C Eardley
Head Teacher
